

# Open Access step-by-step

Presentation for Open Science Community Nijmegen (OSCN), 10 Nov 2020

Jeroen Bos [j.bos@ubn.ru.nl](mailto:j.bos@ubn.ru.nl)

Open Access Officer, Radboud University

# About this presentation

1. Open Access
2. Routes
  - Green
  - Gold
  - Hybrid (*incl. deals*)
3. Tools (*how to...*)
4. Pitfalls (*Predatory Publishing*)
5. Licenses

Please use the group chat to answer the following questions:  
Type in YES or NO or DON'T KNOW

# What do you know about Open Access?

Please use the group chat to answer the following statements and questions:  
Type in YES or NO or DON'T KNOW

- Open Access is mandatory at Radboud University / Radboud UMC

# What do you know about Open Access?

Please use the group chat to answer the following statements and questions:  
Type in YES or NO or DON'T KNOW

- Open Access is mandatory at Radboud University / Radboud UMC
- I know what the Open Access conditions of my funding agency are

# What do you know about Open Access?

Please use the group chat to answer the following statements and questions:  
Type in YES or NO or DON'T KNOW

- Open Access is mandatory at Radboud University / Radboud UMC
- I know what the Open Access conditions of my funding agency are
- I have heard of PLAN S before

# At Your Service!

You can always reach us with OA-related issues, whether you are in the *selecting*, *submitting* or *acceptance* stage of the publication:

- Directly via e-mail: [openaccess@ubn.ru.nl](mailto:openaccess@ubn.ru.nl)
- Directly via phone: 06 5009 96 40
- Via the Ask Your Librarian form on the University Library website

Ask your librarian   
Need help?

# How to achieve Open Access?

- You have done your research and want to publish the results in Open Access
- What options do you have to achieve this?

# 1. Open Access (and PLAN S): policy and options

- Publishing in Open Access is currently already mandatory for major funders (NWO, ERC, Horizon2020).
- And there's also Plan S...

## Plan S

- Will be effective January 1<sup>st</sup> 2021
- Effects research programs, funded by external funding agencies, starting from 2021 onwards
- Will be covered in our webinar this Thursday

## 2. ROUTES

### three main routes to Open Access (+ 1)

Full open access journals (Gold)	Hybrid open access journals (through big deals)	Radboud Repository (Green)	(Pre-print archiving)
Journals without a subscription option  (OA only)	Subscription journals with OA option  (OA optional)	A Radboud database to share full-text of published papers  (published elsewhere in journals/platforms)	Platforms that allow researchers to upload pre-print, and community to comment on these versions.  <ul style="list-style-type: none"><li>● Main examples: arXiv, bioRxiv</li><li>● Platforms are allowed by funders for archiving, but use of pre-prints is not.</li></ul>

## GOLD OPEN ACCESS (THE 'JOURNAL ROUTE')

Full open access journals (publishers)	Publishing platforms
<ul style="list-style-type: none"><li>• There are 10.000+ open access journals<ul style="list-style-type: none"><li>• Use <a href="#">Directory of Open Access Journals (DOAJ)</a></li></ul></li><li>• Examples: BioMed Central (15 % discount), PLoS, Frontiers, Nature Communications, etc.</li><li>• Payment of Article Processing Charge (APC)<ul style="list-style-type: none"><li>• Costs vary: €0-5000</li><li>• No central RU funding</li></ul></li></ul>	<ul style="list-style-type: none"><li>• Publishing platforms (free):<ul style="list-style-type: none"><li>• <a href="#">Sigma: forum of Mathematics</a></li><li>• <a href="#">SCOAP3 - High Energy Physics</a></li><li>• <a href="#">SciPost - Physics</a></li><li>• <a href="#">Open Library of Humanities</a></li><li>• <a href="#">arXiv/bioRxiv</a></li></ul></li></ul>

# HYBRID OPEN ACCESS (THE 'BIG DEAL ROUTE')

Open access deals	Limitations and full OA journals
<ul style="list-style-type: none"><li>• VSNU Open access deals with publishers</li><li>• Ca. 9000 journals of major publishers<ul style="list-style-type: none"><li>• Springer, Wiley, Sage, Taylor &amp; Francis, Emerald, Brill, Cambridge University Press, Walter de Gruyter, Elsevier (e.g.)</li><li>• Most traditional <u>high impactfactor</u> journals (hybrid journals)</li></ul></li><li>• <u>Free of charge</u> for Dutch corresponding authors</li><li>• Workflow varies per publisher</li></ul> <p><b><u>Always use your institutional email address!</u></b></p>	<ul style="list-style-type: none"><li>• <u>Not all subscription journals</u> (that do have an open access option) <u>are part of a deal.</u></li><li>• Not all OA-Deal-publisher journals are part of the deal<ul style="list-style-type: none"><li>• Society publishers not always included</li><li>• Elsevier: most, but not all journals are covered</li><li>• 'Springer OpenChoice' vs 'SpringerOpen'</li></ul></li><li>• For some deals, only a limited number of papers per year is allowed</li></ul>

# GREEN OPEN ACCESS (THE 'REPOSITORY ROUTE')

## The RADBOUD REPOSITORY (RR): database of the RU/Radboudumc

- Contains the metadata (author, DOI, abstract, etc.) of all RU/UMC publications
- A post-print/publisher version of a paper can be attached, and made OA available **free of charge**
  - However: not all publishers allow this (immediately) → **embargo period**
- Many Gold OA publisher versions are automatically included (but not all; always check yourself!)
- Metadata of your publications are daily uploaded to the repository from Metis/RIS

# GREEN OPEN ACCESS (THE 'REPOSITORY ROUTE')

## The RADBOUD REPOSITORY (RR): database of the RU/Radboudumc

- Contains the metadata (author, DOI, abstract, etc.) of all RU/UMC publications
- A post-print/publisher version of a paper can be attached, and made OA available **free of charge**
  - However: not all publishers allow this (immediately) → **embargo period**
- Many Gold OA publisher versions are automatically included (but not all; always check yourself!)
- Metadata of your publications are daily uploaded to the repository from Metis/RIS

## RR content is:

- easy to find through search engines e.g. Google (Scholar)
- harvested and sustainably archived by National Dutch E-depot (Royal Library)
- visible and searchable as part of a national network of repositories (Narcis; hosted by NWO/KNAW)

# UPLOADING YOUR PAPER TO THE REPOSITORY

## What about the embargo?

- Upload post-print/AAM (author accepted manuscript) or publisher version (if allowed)
- The University Library will check whether the full text can be made available in open access
- The full text will be archived behind an embargo if copyright rules don't allow open access

The screenshot shows the Radboud Repository search page. At the top right is the logo "Radboud Repository sharing science". Below it is a search bar with a "Go" button and a link to "Advanced Search". The main section is titled "Recently added Open Access". It lists two articles. The first article, "Identifying change agent types and its implications for corporate sustainability integration based on worldviews and contextual factors" by Berg, J. van den; Zijp, M.C.; Vermeulen, W.J.V.; Witjes, S., is marked with a grey padlock icon. A red arrow points from this icon to the text "Closed access" on the left. The second article, "Search for Higgs boson pair production in the  $bb\bar{b}WW^+$  decay mode at  $\sqrt{s} = 13$  TeV with the ATLAS detector" by Aaboud, M.; Aad, G.; Abbott, B.; Abidinov, O.; Abeloos, B.; Abhayasinghe, D.K.; Alderweireldt, S.C.; Caron, S.; Colasurdo, L.; Groot, N. de; et al., is marked with an orange open lock icon. A red arrow points from this icon to the text "Open access" on the left.

Closed access

Open access

### 3. TOOLS

## HOW TO FIND *DEALS* INFORMATION?: OA LIBRARY GUIDE

Link: <https://libguides.ru.nl/openaccess/Home>

The screenshot shows the 'LibGuides' page for the Radboud University Library. The page is titled 'Publish Open Access for free or at a discount' and features a navigation bar with links to 'Home', 'ACS', 'BioMed', 'De Gruyter', 'Elsevier', 'Wolters Kluwer', 'Other FREE options', and 'Contact'. The main content area is divided into several sections, each with a red header. The 'Springer' section is highlighted with a blue circle. The 'WILEY' section is also highlighted with a blue circle. The 'Which journals are covered by this deal?' section is highlighted with a blue circle. The 'How to indicate that you want to publish in open access?' section is highlighted with a blue circle. The 'Ignore the pop-up about 'Billing' when submitting' section is highlighted with a blue circle.

University Library / LibGuides / Publish Open Access for free or at a discount

**Publish Open Access for free or at a discount**

Home ACS BioMed De Gruyter Elsevier Wolters Kluwer Other FREE options Contact

**What are the main outlines of the agreement with Springer**

**Springer** No author's fee for open access publications

Springer has agreed that articles from corresponding authors published in open access. The agreement applies to the journals listed below.

**How to receive this discount:** Make sure that you select the "Affiliation" drop-down menu and agree to the open access conditions.

**To which journals does this agreement apply?**

There is a maximum of 2,080 Dutch publications. Once this number is reached, the agreement will terminate and items will no longer be eligible for open access.

- List of OpenChoice journals covered by the Springer Deal
- OpenChoice program

**Ignore the pop-up about 'Billing' when submitting**

When submitting a manuscript to a Springer journal, you may encounter a pop-up about billing. This can happen even if it's a Springer's OpenChoice journal. (These are journals for which there is no author's fee.)

If you're using your RU/Radboudumc e-mail address and a...

**WILEY** No charge for publishing in Wiley's OnlineOpen journals

Corresponding authors from a Dutch university or UMC may publish primary research and review articles open access in any of Wiley's hybrid, **OnlineOpen** journals at no charge to the author until 2019.

**Are Wiley's full open access journals also part of this deal?**

Wiley also publishes 60 full open access journals; these journals are not covered in this agreement. A researcher can, of course, still make an individual decision to publish in one of the 60 full open access journals. As these journals are not part of the Big Deal, the APCs will still need to be paid by the researcher.

**How to receive this discount:** The workflow for using this free open access publishing option isn't the same for all Wiley journals. Make sure that you use the email address of your institution at any time when having contact with Wiley and during the submitting process. Wiley uses this address to detect if you are eligible for the open access deal of VSNU.

Wiley has made a [flyer explaining the standard workflow](#) on how to select the free open access option after your paper is accepted. A link to the PDF can also be found in the box below (*How to indicate that you want to publish open access*).

For **some journals, this standard workflow doesn't apply**. On the left below (under *Which journals are covered by this deal*) you can find an Excel list of these journals. If you aim to publish in one of these journals, please **contact our open access service desk** at [openaccess@ubn.ru.nl](mailto:openaccess@ubn.ru.nl).

**Which journals are covered by this deal?**

- Wileys hybrid OnlineOpen journals  
Opens an Excel document which lists the covered journals.
- List of journals with non-standard workflow  
This list contains all journals for which the standard workflow doesn't apply. Contact the RU open access service desk for more information ([openaccess@ubn.ru.nl](mailto:openaccess@ubn.ru.nl)).

**How to indicate that you want to publish in open access?**

You must clearly specify that you would like your article to be published in open access. You can do that **after** you are notified that your article is accepted.

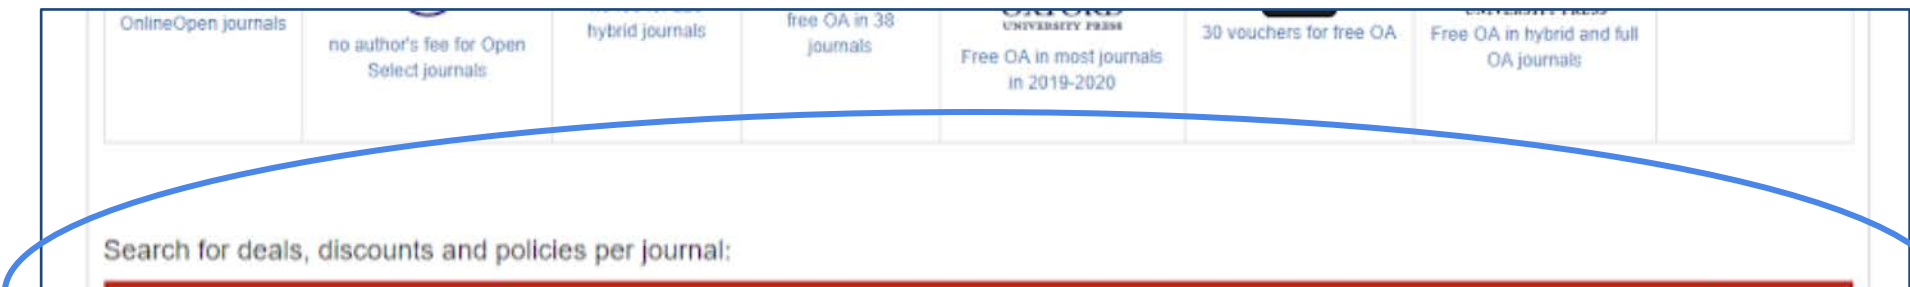

- Wiley flyer workflow OA deal  
This flyer provides a detailed explanation on how to indicate that you want to make use of the Open Access Deal with the VSNU.

ROBERT NEUBECKER

### How I became easy prey to a predatory publisher

By Alan H. Chambers | May. 9, 2019, 2:00 PM

I was nursing my wounds from my latest manuscript rejection when the email arrived. I was about 2 years into my assistant professorship, with the tenure clock running at full speed, and the pressure to publish was immense. I knew that navigating rejection was part of the job, but I was also starting to wonder whether my study—a modest project designed to be feasible with the minimal lab space and skeleton crew of a new professor—would ever see the light of day. So when

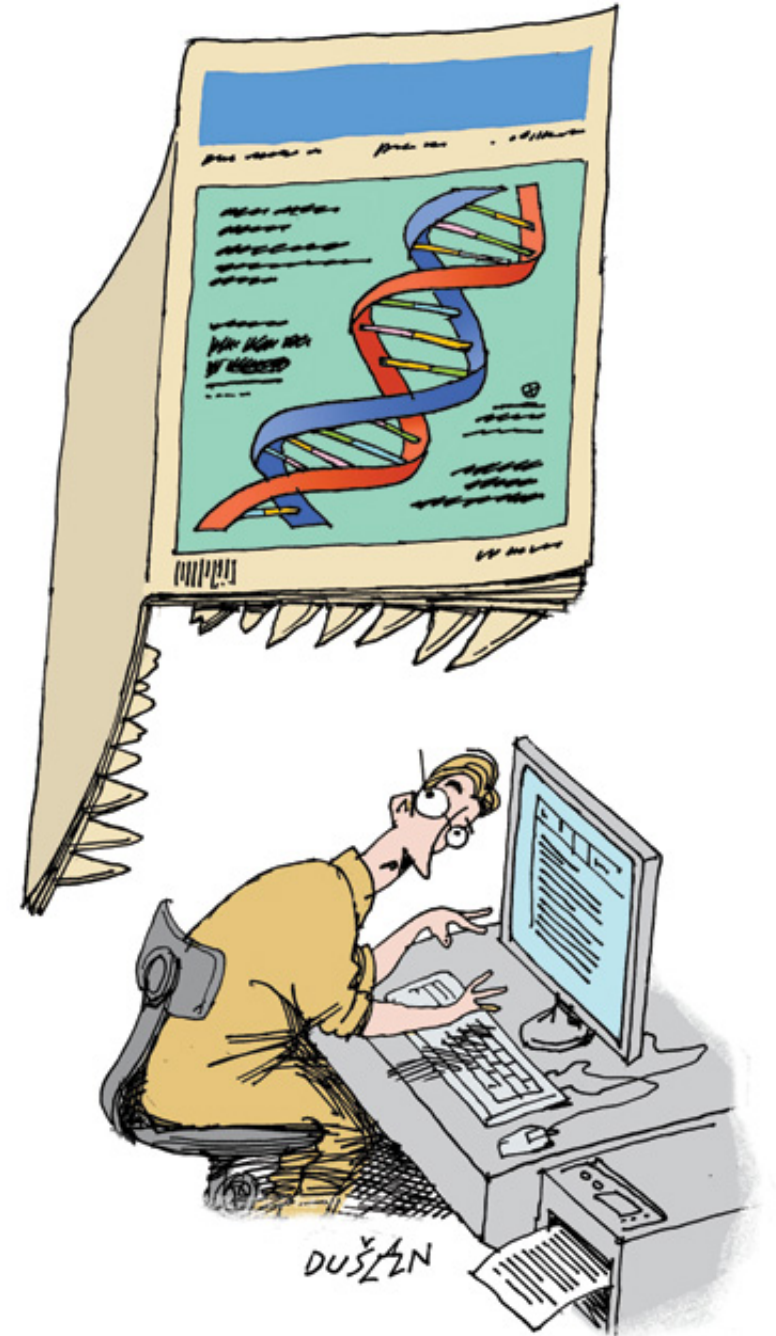

## 4. PITFALLS

### WORD OF CAUTION: BEWARE OF PREDATORY PUBLISHERS

- Publishers that use APC payment system for monetary gain
- (Almost) always full open access journals
- Absent/limited peer review, limited/no copyediting or service
- Difficult to recognize, and no foolproof way to avoid them
  - Contact [openaccess@ubn.ru.nl](mailto:openaccess@ubn.ru.nl)

**Problem: you cannot simply retract your paper once submitted!**

They will charge you for retraction, or publish your paper if you do not pay (thus making your paper useless for a legitimate journal)

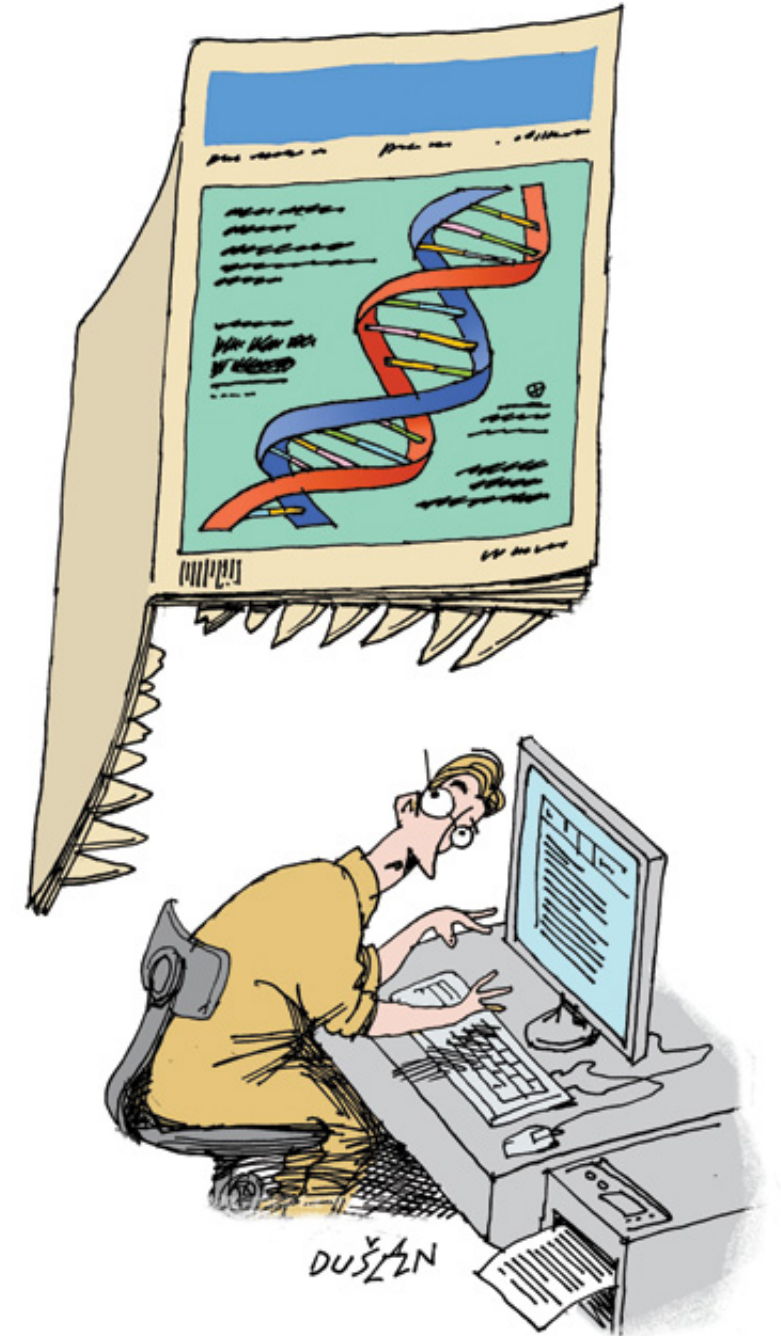

## 4. PITFALLS

### WORD OF CAUTION: BEWARE OF PREDATORY PUBLISHERS

#### Combine different tools

- [DOAJ](#) - Directory of Open Access Journal: strict adherence policy
- Member of [OASPA](#) (Open Access Scholarly Publishers Association) or [COPE](#) (Compact for Open-Access Publishing Equity)
- [Blacklist of Predatory Publishers](#) - *possibly* disreputable journals and publishers
- [Think Check Submit](#) – checklist

## 5. CREATIVE COMMONS LICENSES: KNOW WHAT TO CHOOSE

ATTRIBUTION: All CC licenses require that others who use your work in any way **must give you credit the way you request**, but **not in a way that suggests you endorse them or their use**. If they want to use your work without giving you credit or for endorsement purposes, they must get your permission first.

+SHARE ALIKE: You let others copy, distribute, display, perform, and modify your work, as long as they **distribute any modified work on the same terms**. If they want to distribute modified works under other terms, they must get your permission first.

+NON-COMMERCIAL: You let others copy, distribute, display, perform, and (unless you have chosen NoDerivatives) modify and use your work **for any purpose other than commercially** unless they get your permission first.

## 5. CREATIVE COMMONS LICENSES: KNOW WHAT TO CHOOSE

Combines SA and NC (users should distribute any modified work on the same terms, and can use your work for any purpose other than commercially)

+NON-DERIVATIVES: You let others copy, distribute, display and perform **only original copies of your work**. If they want to modify your work, they must get your permission first.

Combines NC and ND (users are only allowed to use original copies of your work and for any purpose other than commercially).

## 5. CREATIVE COMMONS LICENSES: KNOW WHAT TO CHOOSE

- All licenses are open access (CC-BY is the most open, CC-BY-NC-ND the least)
- Some publishers reserve the right to decide not to implement the license in full (incl. NC; it will always remain OA)

### Until 1 january 2021:

- all licenses are allowed for funders

### Plan S = only CC-BY (or CC-BY-SA)

- More information about this in our Thursday webinar

### More information
